Risk Management Framework

2026

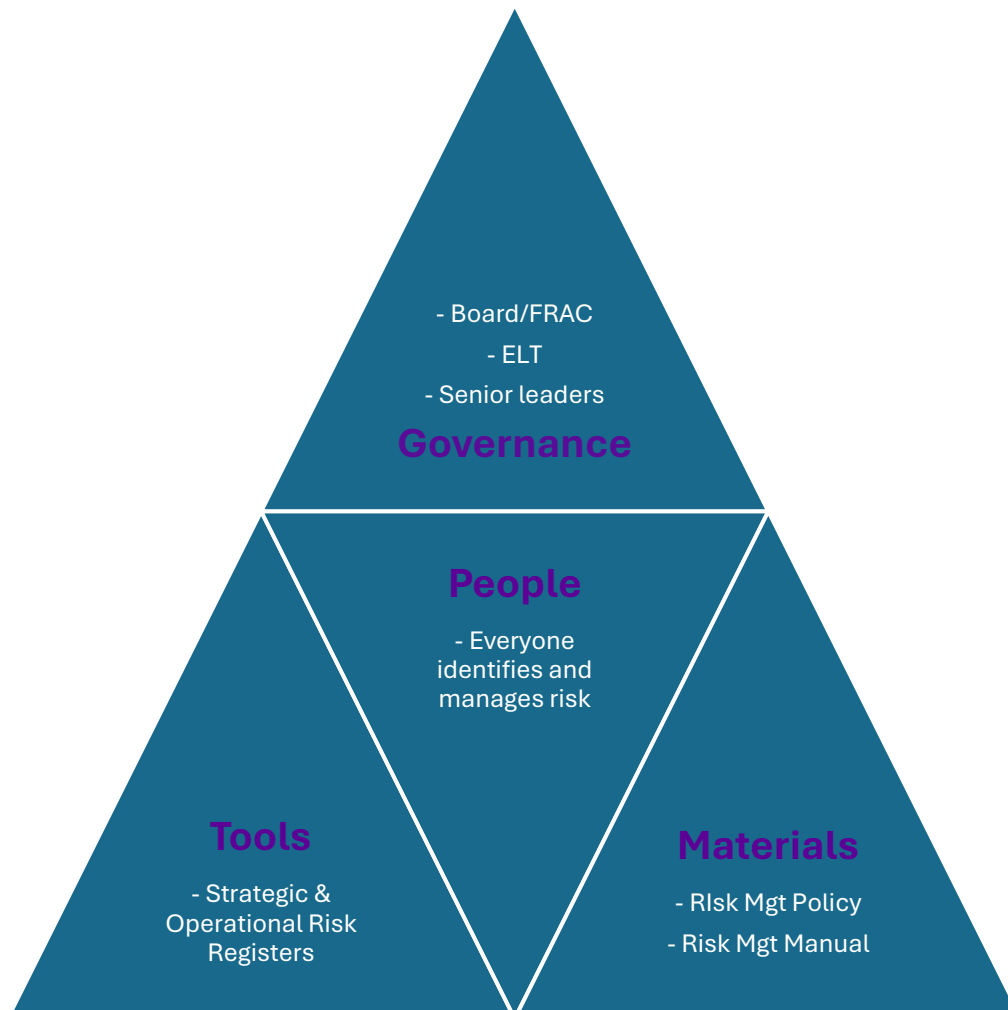

alpineresorts.vic.gov.au

The Framework

This Framework describes how **Governance**, **Materials** and **Tools** are integrated to collectively support **People** to engage with and manage risk. For the purpose of achieving our strategic objectives, protecting our people and communities, and fulfilling our obligations as a Victorian public entity.

1. Materials:
 - The Risk Management Policy defines **what** we must do
 - The Risk Management Manual defines **how** we do this
2. Tools:
 - The risk registers, both Strategic and Operational, are **where** we document risk
3. People:
 - Everyone at ARV (the **who**) has responsibility to manage risk
4. Governance:
 - The Board; the Finance Risk and Assurance Committee (FRAC); the Executive Leadership Team (ELT); and all senior leaders have a cascading level of responsibility and accountability for ensuring and promoting an **effective and efficient risk management function** and a **positive risk management culture**.
